## **DETAILED ACTION**

### ***Claim Objections***

1. Claims 32-39 are objected to because of the following informalities: claims 32-39 depend on canceled claim 31. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

**Claims 2-21** are rejected under 35 U.S.C. 101 because claims 2 and 13 recite nothing but the physical characteristics of a signal, which are nonstatutory natural phenomena.

### ***Allowable Subject Matter***

3. Claims 23-30 are allowed.

**Regarding claims 23 and 27**, the prior arts of record fail to teach or disclose a transmitted magnetic field signal as claimed in claim 23, which further comprises an information sideband including sideband energy, a substantial portion of the sideband energy being contained between the carrier component frequency and a frequency spaced 50Hz from the carrier component frequency.
